

Signing-in using the Causeway Donseed tablet

Using the Causeway Donseed tablet is a quick and easy process. Here are the steps that you must take.

Before you begin

Before you start the signing-in process, you may need to wake the device. You can do this by pressing the on button and then touching the Causeway Donseed icon as shown.

Please then follow the on screen instructions illustrated in the four steps below.

-  Do not use your fingertip or bend your finger
-  Do keep your finger flat and add pressure to the print
-  Make sure your finger is clean and dry so that the device can read the print
